**iShares 100 UK Equity Index Fund (UK)**

A sub-fund of BlackRock Collective Investment Funds

**Class D Accumulating GBP**

ISIN: GB00B7W4GQ69

Manager: BlackRock Fund Managers Limited

**Objectives and Investment Policy**

- ▶ The Fund aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund) by tracking closely the performance of the FTSE 100 Index, the Fund's benchmark index.
- ▶ The Fund invests in equity securities (e.g. shares) of companies that make up the benchmark index.
- ▶ The benchmark index measures the performance of equity securities of the largest 100 companies listed in the United Kingdom. The benchmark index is a free float-adjusted market capitalisation weighted index. Free float-adjusted means that only shares readily available in the market rather than all of a company's issued shares are used in calculating the benchmark index. Free float-adjusted market capitalisation is the share price of a company multiplied by the number of shares readily available in the market.
- ▶ The Fund is passively managed and the investment manager has limited discretion to select the Fund's investments and in doing so will take into consideration the benchmark index.
- ▶ The Fund intends to replicate the benchmark index by holding the equity securities, which make up the benchmark index, in similar proportions to the benchmark index.
- ▶ The Fund may also engage in short term secured lending of its investments to certain eligible third parties. This is used as a means of generating additional income and to off-set the costs of the Fund.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be accumulating units (i.e. dividend income will be included in their value).
- ▶ Your units will be denominated in Sterling, the Fund's base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is £100,000.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

**Risk and Reward Profile**

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
  - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
  - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

## Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

\*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 22 December 2020. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over each year	
Ongoing Charges	0.06%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

## Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2012. The unit class was launched in 2012.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†1 FTSE 100 Index (GBP)

As of 31 December 2014, the Benchmark Index converted from a close of business valuation to a midday valuation. Historic performance of the Benchmark has been simulated by the Benchmark provider and such data is used for the purposes of demonstrating historic performance in the "Past Performance" table from 31 July 2009 or from the launch of the share class if later.

Historic performance to 31 December 2020

## Practical Information

- ▶ The trustee and depositary of the Fund is The Bank of New York Mellon (International) Limited, which also acts as custodian.
- ▶ Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the BlackRock Collective Investment Funds (BCIF). These documents are available free of charge in English. These can be found, along with other information, such as unit prices, on the BlackRock website at [www.blackrock.com](http://www.blackrock.com), on the iShares website at [www.ishares.com](http://www.ishares.com) or by calling Investor Services on 0800 44 55 22.
- ▶ Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.
- ▶ The Fund is a sub-fund of BCIF, an umbrella structure comprising different sub-funds. This document is specific to the Fund and unit class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ BlackRock Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ The assets of the Fund are held on trust for its unitholders under English trust law which means that its assets cannot be used to discharge the liabilities of other sub-funds within BCIF. In addition, the Fund's assets are held separately from the assets of other sub-funds.
- ▶ Investors may switch their units in the Fund for units in another sub-fund within BCIF, subject to meeting certain conditions as set out in the prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at [www.blackrock.com/Remunerationpolicy](http://www.blackrock.com/Remunerationpolicy) or on request from the registered office of the Management Company.

### Nordea 1 – Emerging Stars Equity Fund, BC-GBP Share Class

ISIN-Code: LU0841603938

The management company is Nordea Investment Funds S.A., a company of the Nordea Group.

#### Objectives and investment policy

The fund's objective is to provide shareholders with investment growth in the long term.

In actively managing the fund's portfolio, the management team selects companies with a particular focus on their ability to comply with international standards for environmental, social and corporate governance, and to offer superior growth prospects and investment characteristics.

The fund mainly invests in equities of companies in emerging markets. Specifically, the fund invests at least 75% of total assets in equities and equity-related securities issued by companies that are domiciled, or conduct the majority of their business, in emerging markets.

The fund may invest in, or be exposed to up to 25% of its total assets in China A-shares.

The fund will be exposed (through investments or cash) to other currencies than the base currency.

The fund may use derivatives and other techniques for hedging (reducing risks), efficient portfolio management and to seek investment gains. A derivative is a financial instrument which derives its value from the value of an underlying asset. The use of derivatives is not cost or risk-free.

The fund is promoting environmental and/or social characteristics as per Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR). Further information regarding the way the fund takes environmental and/or social criteria into account is available in the fund's prospectus and accessible via [nordea.lu](http://nordea.lu).

The fund is subject to Nordea Asset Management's responsible investment policy.

Nordea Asset Management conducts a thorough due diligence on external data vendors to clarify applied methodologies and verify data quality. However, as the regulation and standards of non-financial reporting is rapidly developing, data quality, coverage and accessibility remains challenging - especially for smaller companies and less developed markets.

Any investor may redeem its shares in the fund on demand, on a daily basis. This fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

While the fund compares its performance against the MSCI Emerging Markets Index (Net Return), it may freely select the securities that it will invest in. The risk characteristics of the fund's portfolio may bear some resemblance to those of the reference index.

This share class is not distributing dividends. Income from investments is reinvested.

The fund is denominated in USD. Investments in this share class settle in GBP. USD/GBP fluctuations may lead the performance in GBP of the share class to significantly deviate from the fund performance in USD.

#### Risk and reward profile

The indicator measures the risk of fluctuations of the Net Asset Value of the share class based on the last 5 years volatility and places the fund in category 6. This means that the purchase of units in the fund is connected to **high risk** of such fluctuations.

Please note that category 1 does not mean a risk free investment.

Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the UCITS, as the category might change in the future.

Following risks are materially relevant to the UCITS but are not adequately captured by the synthetic indicator and may cause additional loss:

- **Country risk — China:** The legal rights of investors in China are uncertain, government intervention is common and unpredictable, and some of the major trading and custody systems are unproven.
- **Depository receipt risk:** Depository receipts (certificates that represent securities held on deposit by financial institutions) carry illiquid securities and counterparty risks.
- **Derivatives risk:** Small movements in the value of an underlying asset can create large changes in the value of a derivative, making derivatives highly volatile in general, and exposing the fund to potential losses significantly greater than the cost of the derivative.
- **Emerging and frontier markets risk:** Emerging and frontier markets are less established, and more volatile, than developed markets. They involve higher risks, particularly market, credit, legal and currency risks, and are more likely to experience risks that, in developed markets, are associated with unusual market conditions, such as liquidity and counterparty risks.
- **Securities handling risk:** Some countries may restrict securities ownership by outsiders or may have less regulated custody practices.
- **Taxation risk:** A country could change its tax laws or treaties in ways that affect the fund or shareholders.

For more information on risks the fund is exposed to, please refer to the section "Risk Descriptions" of the Prospectus.
